

NOMBRE: Carlos Torrez Serrano

TAREA

1.

```
using System;

class Program
{
    static void Main()
    {
        int n;
        double s = 0;

        Console.Write("Ingrese n: ");
        n = int.Parse(Console.ReadLine());

        for (int i = 1; i <= n; i++)
        {
            s += (double)i / (i * i);
        }

        Console.WriteLine("S = " + s);
    }
}
```

2.

```

using System;
class Program
{
    static void Main()
    {
        int n;
        long fact = 1;

        Console.Write("Cantidad de términos: ");
        n = int.Parse(Console.ReadLine());

        for (int i = 1; i <= n; i++)
        {
            fact *= i;
            Console.Write(fact + " ");
        }
    }
}

```

A screenshot of a console window with a black background and green text. The first line shows the prompt 'Cantidad de términos: 10'. The second line displays the sequence of numbers '1 2 6 24 120 720 5040 40320 362880 3628800', which are the factorials of integers from 1 to 10. The third line shows a file path: 'C:\Users\raul72\source\repos\ConsoleApp1\ConsoleApp1\Program.cs'.

3.

```

using System;
class Program
{
    static void Main()
    {
        int n;

```

```

    Console.Write("Cantidad de términos: ");
    n = int.Parse(Console.ReadLine());

    for (int i = 1; i <= n; i++)
    {
        Console.Write((i * i + 1) + " ");
    }
}

```

```
